Summary

Data engineer with a strong mathematical background and experience designing and building ETL/ELT pipelines and distributed data processing systems at scale.

Specialized in data infrastructures for urban mobility and vehicle taxation domains, using Python, SQL, Apache Spark, Databricks, and cloud computing to deliver robust and scalable solutions.

Rigorous and autonomous professional with the ability to design end-to-end data solutions and collaborate effectively in data-driven multidisciplinary teams.

Technical Skills

Data Engineering	Python, SQL, Apache Spark, Databricks, ETL/ELT
Integration	REST API consumption and integration, batch processing
Databases	PostgreSQL, MongoDB, Oracle
Cloud - DevOps	AWS, Docker, Git, GitHub Actions
Machine Learning	Scikit-learn, predictive model fundamentals

Experience

icaria Technology

Madrid, Spain

IMPLEMENTATION CONSULTANT

Feb. 2026 - Present

- Analysis of Oracle, MySQL, and PostgreSQL databases to identify sensitive data.
- Implementation of the company's proprietary product.
- Deployment of sensitive field dissociations according to client requirements.

Quipux S.A.

Medellín, Colombia

DATA AND QUALITY ANALYST

Aug. 2022 - Aug. 2023

- Developed an application to identify inaccurate vehicle tax charges and calculate individual and bulk payments.
- Implemented data quality control and assurance processes for subsequent decision-making.
- Updated vehicle characteristics data to enable annual tax collection.
- Maintained automated mass notification processes for taxpayers.

Quipux S.A.

Medellín, Colombia

DATA ANALYST

Apr. 2021 - Aug. 2022

- Automated PDF reports with key performance indicators for the public transportation system.
- Redesigned Power BI dashboards for daily passenger mobility analysis.
- Extracted, transformed, and made mobility data available for analytical consumption.

Academic Experience

Universidad de Antioquia

Medellín, Colombia

MASTER'S THESIS TUTOR

Aug. 2022 - Dec. 2022

- Advised on the development of the master's thesis titled: Computational Thinking as a Resource for the Understanding of Operations with Rational Numbers.

Universidad de Antioquia

Medellín, Colombia

MASTER'S THESIS TUTOR

Feb. 2022 - Jul. 2022

- Advised on the development of the master's thesis titled: Algorithmic Procedures in Problem Solving with Systems of Linear Equations.

Universidad de Antioquia

Medellín, Colombia

MATHEMATICS INSTRUCTOR (SERVICE CONTRACT)

Feb. 2022 - Jul. 2022

- Designed, taught, and evaluated courses in Discrete Mathematics, Differential and Integral Calculus, Euclidean Geometry, and Logic.

Universidad Nacional de Colombia

Medellín, Colombia

MATHEMATICS INSTRUCTOR (SERVICE CONTRACT)

Feb. 2020 - Nov. 2020

- Designed, taught, and evaluated courses in Differential Calculus and Basic Mathematics.

Education

Universidad Autónoma de Madrid

MASTER IN BIG DATA AND DATA SCIENCE: SCIENCE AND ENGINEERING

Madrid, Spain

Sep. 2023 - Feb. 2025

Universidad EAFIT

DIPLOMA IN FRONT-END AND BACK-END SOFTWARE DEVELOPMENT

Medellín, Colombia

Aug. 2022 - Oct. 2022

Universidad de Antioquia

MASTER IN MATHEMATICS EDUCATION

Medellín, Colombia

Feb. 2017 - Dec. 2019

Universidad Nacional de Colombia

MATHEMATICIAN

Medellín, Colombia

Feb. 2011 - Dec. 2015
